

MUSE® INTERVENTION - HEALTH CRISIS MANAGEMENT

A 100% subsidiary of CITEUM/EDF, Citégestion is the publisher of MUSE®, the Smart City platform for urban space management.

1 REPORT & ORGANIZE

- Possibility for all to report and monitor their needs, particularly those related to health crisis management, through a simple and easy user interface.
- Management of reports according to the crisis management rules defined by the administrator
- Location in space and on assets.

2 REACT & TAKE ACTION

- Operations specific to Covid-19 (cleaning, refill of gel,...) pre-set up and configurable.
- Analysis and management of the requests and operations according to the rules related to the sanitary crisis.
- Automatic generation and dispatch of recurrent operations.
- Automatic reminders and alerts.
- Complete data logging and tracking

3 ANALYZE & PREDICT

- Automated analysis of all alerts, requests for assistance and operations transiting through the system
- Dashboards and indicators for monitoring compliance with directives (response rate, mask/gel coverage, cleaning...) and current procurement requests (number of requests...)

- Monthly access price: 15€/user – 10 users minimum
- Single set-up price: 750€
